Dear Colleagues,

(There are some of you who have just been added to this e-mail. It may not make sense to you unless you start from the bottom of the e-mail. Also, fyi, Johnsie Webster is the audit liaison for OSWER.)

Well it was wishful thinking!

It appears that not all of the key players will be available on the afternoon of 10/11, so I am hereby cancelling the proposal for the meeting.

Shahid, since you are the chair of the mining team, is there a regular upcoming meeting that you hold where we could just be added to the agenda? Perhaps we could use this as a starting date/time. Please let me know ASAP so we can plan for any who may want entrance conferences.

Also, please pass this on to others I have not included and you think need to be informed.

Thanks,  
 Tina
